

**Confusion Matrix: Precision**

		<b>Predicted</b>	
		Positive	Negative
<b>Actual</b>	Positive	True Positive (TP)	False Negative (TN)
	Negative	False Positive (FP)	True Negative (TN)

correctly predicted positives

True Positive (TP)

all positives

False Positive (FP)

+

True Positive (TP)

*How many of the predicted*

*Positives are correct?*

# Confusion Matrix: Precision

correctly predicted positives

True Positive (TP)

all positives

False Positive (FP)

+

True Positive (TP)

*How many of the predicted  
Positives are correct?*

		Predicted	
		Positive	Negative
Actual	Positive	True Positive (TP)	False Negative (TN)
	Negative	False Positive (FP)	True Negative (TN)

# Confusion Matrix: F1 Score

		Predicted	
		Positive	Negative
		True Positive (TP)	False Negative (TN)
Actual	Positive		
	Negative
