

set apart with ven diagrams

A Venn diagram consisting of two overlapping circles of equal size, both filled with a solid red color. The circles overlap in the center, creating a lens-shaped intersection. The entire diagram is set against a plain white background.

$A \cup B$

$A \cap B$

set operators with Venn diagrams

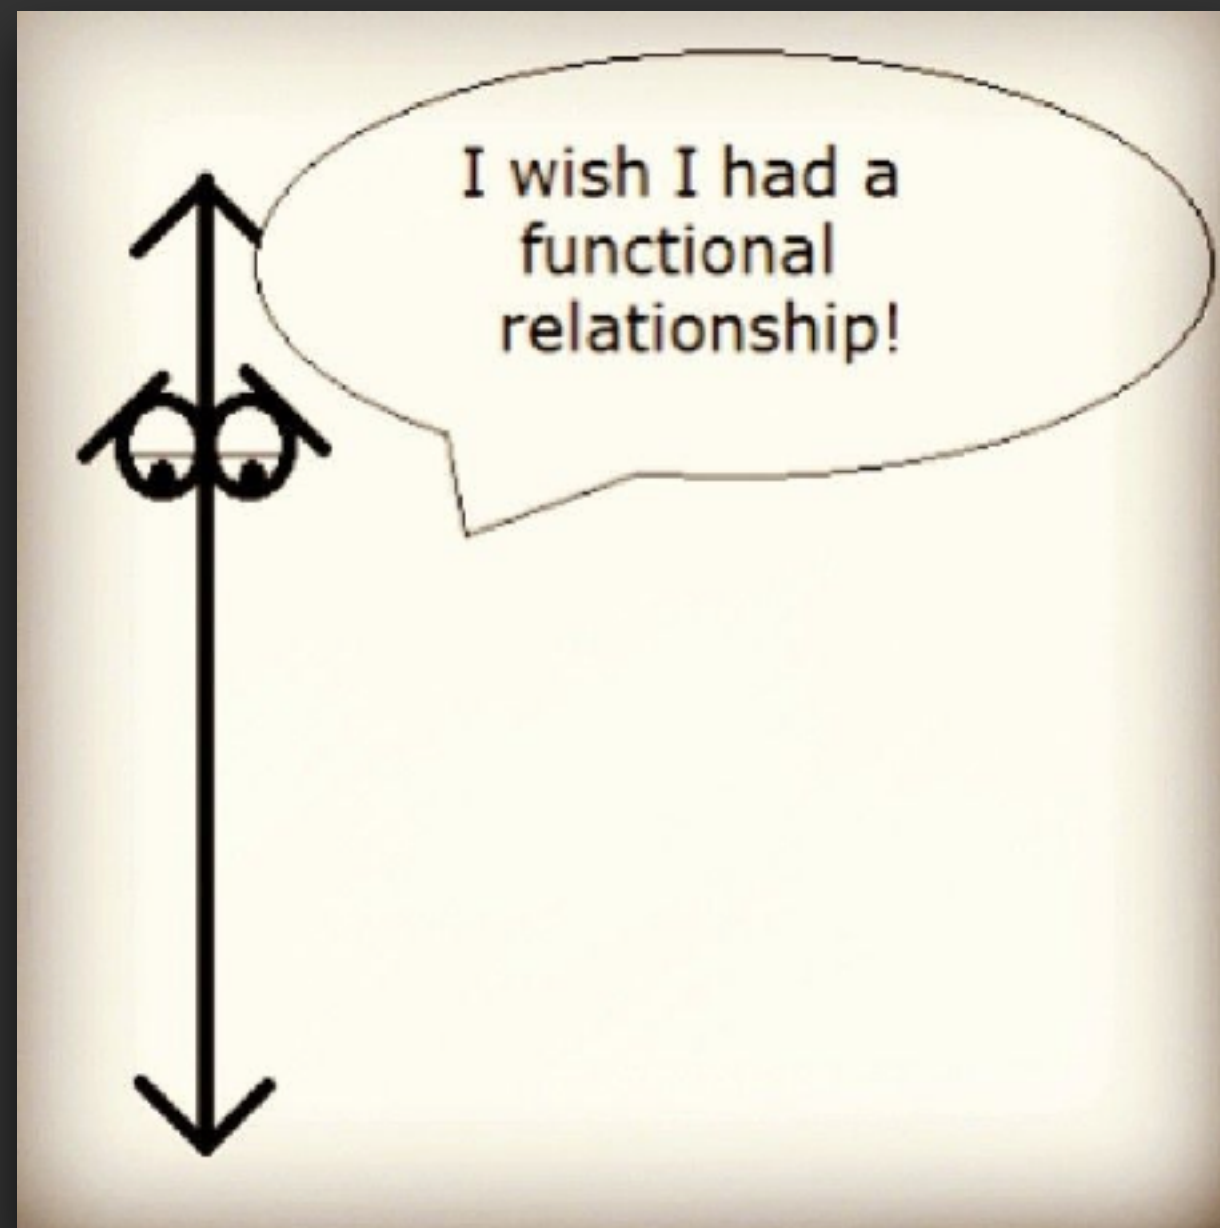

cardinality of the set union

$$|A \cup B| = |A| + |B| - |A \cap B|$$

relations and functions

used to compare concepts and uncover relationships between them

- a relation is a relationship between sets of information
- a function is a well-behaved relation
