Promoting Physical Exercise in Lab and Life

understanding and changing the complex dynamic systems in physical activity

Maik	Bieleke
Markus	Gruber
Martina	Kanning
Daniel	Keim
Daniela	Mier
Maria	Moreno-Villanueva
Fridtjof	Nussbeck
Jens	Pruessner
Termeh	Shafie
Julia	Schüler
Michael	Schwenk

the reciprocal and dynamic impact of social environment and physical activity

Interconnected Convoys of Caregiver Networks

structure and function of support networks of parents caring for children with rare disease

investigates multi-centric interconnected convoys with respect to care-related interactions

- malfeasance (conflict)
- nonfeasance (disengagement)
- uplift (support)
